- c. The policyholder's mortgage company
- d. The policyholder's bank

7. Federal and state regulations may provide relief if you're victimized by identity theft.

- a. True
- b. False

Case Study #1: CEE Standard 6 Protecting and Insuring (Grade 12 Benchmarks 1-7)

Scenario: Lupita recently started driving. Her parents sat down with her to discuss the importance of being safe behind the wheel and how it helps keep costs low. They also shared that the monthly car-insurance premium increased by \$140 when they added her to their policy.

Based on this information, answer the questions below.

1. Why do you think Lupita's parents were willing to pay the extra \$140 per month for full coverage instead of settling for a cheaper less-comprehensive policy?

2. What might happen to the premium if Lupita takes a safe-driving course?

3. The \$140 increase is double the amount it costs to insure both of her parents each month. Why do you think that is the case?

4. When Lupita's parents went rate shopping for her policy, they were told they had to carry a minimum dollar amount of coverage. Who determines this figure?
